FeliCa

SONY

Mr. Yuki Mizoguchi
Marketing Manager of FeliCa Business Section,
PT. Sony Indonesia

"It's a great opportunity for us to introduce SONY FeliCa to many transport operators in Indonesia. We hope next year we have a chance to come again here and see a lot of customers. Thank you."

Growing Business in Indonesia's Railway Market

The central government has approved Great Jakarta's infrastructure projects worth Rp 571 trillion (US\$40.12 billion) until 2030. The transport infrastructure development needs including 223 kilometers of MRT tracks (current 16 km), 116 km of LRT lines (current 5,8 km) and a bus rapid transit (BRT) network that covers 2,149 km from 431 km. The government wants intermodal connectivity and continuity, both MRT, LRT, Electric Rail, BRT System, then other modes of transportation.

In addition, there are over 20 mega rail transports projects are being worked on and will soon be launched in the near future. According National Railway Vision 2030 issued by Indonesia Ministry of Transport, the Indonesian railway projects will be implemented until 2030 with investment over USD 88,16 billion. This giant fund would be used to build LRT in several provinces, MRT Jakarta (fase-2 and fase-3), High Speed Railway (Bandung and Surabaya), 3,258 km railway line in a few strategic areas, increasing the number of trains, and the construction of new stations.

Building and Enlarging Your Rail Business in South East Asia

With further growth potential for urban transportation systems and intermodal connectivity & continuity both MRT, LRT, Electric Rail, BRT System in Indonesia, the 4th edition of RailwayTech Indonesia 2020 taking place from **March 18 – 20, 2020** at **JIExpo, Jakarta – Indonesia**.

RailwayTech Indonesia 2020 is a global B2B and B2G railway event, which hosted by **MASKA (Indonesia Railway Society)** and supported by Indonesia Ministry of Transportation. The show has become ASEAN's Largest Trade Show for Railway System, Technologies, Infrastructure and Services.

Mr. Ruhara Agus Mulyono

General Manager - PT. Kereta Api Logistik

By participating in this exhibition, we hope to socialize the logistics services managed by PT. Kereta Api Logistik as a subsidiary of PT. Kereta Api Indonesia (KAI) to the public. We directly met with many prospective customers during the exhibition.

Exhibitor Profile

A. Railway Technology

- Rail bound vehicles for public transportation
- Subassemblies & components
- Service for vehicles
- Cargo transportation, logistics, IT

B. Infrastructure Technology and Facilities

- Infrastructure / railway construction
- Planning and monitoring of construction works
- Track machinery, equipment, and tools
- Station buildings
- Technical equipment / building materials
- Signaling and control systems
- Overhead line equipment
- Tunnel construction

C. Train and Interiors

- Train body structure (materials, body structure, design and painting)
- Running gears (bogies, piping, coupling device, shock absorbing)
- Doors, windows, hoods
- Information and security
- Diesel engines, transmissions, bi-mode, storage batteries, capacitors
- Brakes (air supply, discs, brake blocks, regenerative brakes)
- In-vehicle facilities (toilets, washroom, AC)
- Interior design (floors, seats, baggage racks, in-vehicle lighting)

D. Passenger Services

- Stations (ticket checking, collecting machines, ticket vending machine)
- Station buildings, stores, building structure/ method
- Universal design, barrier free design
- Automatic guidance, signs, media / advertisement, food services
- Reservation system
- Disaster prevention and safety measures

Visitor Profile

- Railway companies and operators
- Associations and institutions
- Rolling stock manufactures
- Engineering / contractor
- Administrations, Authorities, Ministries
- Rail manufacturers and suppliers
- Consultant and city planners
- Security or safety management
- Education center related
- Government
- Agents, importers, exporters and wholesalers

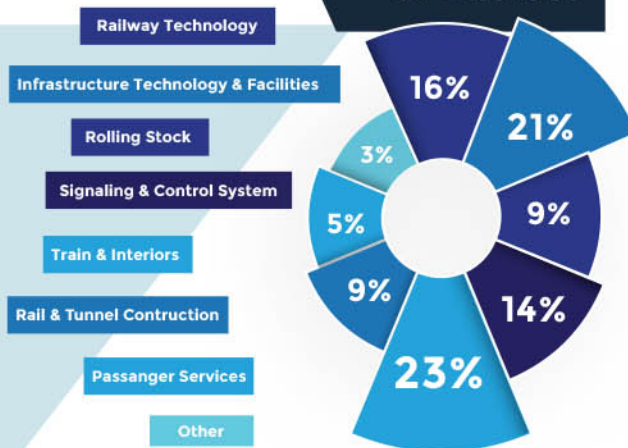

Ms. Melisa Suciati

Corporate Communication Manager
PT. LRT Jakarta

"The 2019 RailwayTech Indonesia exhibition is able to bring stakeholders and the railway industry players especially in Indonesia. We hope that by participating in this exhibition, we can show the existence of the Jakarta LRT in the railroad industry and the public."

Visitors Areas of Interest

Key Exhibitors :

a. Rail Operator

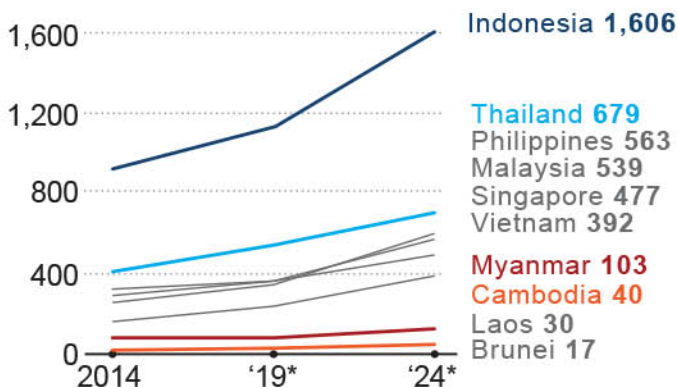

b. Rail Infrastructure, Technology and Equipment
