RSSB	<p>Ali Chegini Director, System Safety and Health +44 203 142 5303 +44 7494 972 030 ali.chegini@rssb.co.uk</p>	<p>Ali is a Chartered Engineer with 30 years' experience and the RSSB Director of System Safety & Health. He leads RSSB's team of specialists in systems assurance, safety assessments, risk analysis/modelling, safety intelligence systems, human factors, ergonomics, health and wellbeing, and occupational hygiene. He chairs the RSSB Risk Management Capability Group and directs the revision of the railway industry's taking safe decisions (TSD) framework and he is one of RSSB's main points of contact for industry collaboration with the Chief Inspectors from ORR and RAIB. Ali was the Systems Assurance Manager for the Bechtel-Siemens Consortium on Lines 1 and 2 of the Riyadh Metro, managing a team of RAMS experts on two automated, driverless metro lines. This included presenting assurance evidence directly to the ICP, the Employer's ISA, the Regulator and the Engineer.</p> <p>Before this, he was the railway safety regulator in Dubai, seeking verification on how duty holders and their safety assessors discharged their safety assurance duties and responsibilities during the build, operation and maintenance phases of six fully and semi-automated railways. He has been a member of various Safety and Operational Review Panels and worked closely with the UAE Federal Transport Authority to help realize the Emirates' transportation objectives. Ali has reviewed, inspected, supported and approved duty holders' safety management systems and processes, their emergency and crisis response plans, and ensured that these were fit for purpose for the UAE's regulatory requirements.</p>
